

Chapter 9 Directors' Code of Conduct

Article 1 – Code of Conduct Policy

1.1 Policy Statement

The District is committed to upholding the highest ethical standards in all of its business and professional operations and relationships. We will carry out its mission with unquestionable ethics and integrity, the cornerstone of achieving and maintaining credibility and ensuring public trust. We owe this, and no less, to the public we serve.

The ability of the District to achieve its mission is directly dependent on the day-to-day choices we make and our actions while representing the District. We are accountable for creating and maintaining credibility and trust with our customers, dealing fairly and honestly with our suppliers, contractors and consultants, and avoiding actual or perceived conflicts of interest that may arise due to outside activities, employment and gifts.

1.2 Board Governance Process

The Board shall cultivate a governance process with focus on long-term vision, strategic leadership rather than the daily affairs of the District. The Board shall encourage diversity of viewpoints, act in consistency with defined Board and General Manager roles, and strive for collaboration rather than individual decisions.

Pursuant to Part 2, Chapter 1, Article 3.3, "Duties and Role of Board Officers," Directors do not have individual power or authority over the District. The power and authority lie with the full Board. The Board directs the General Manager and the General Manager directs staff.

The Board is encouraged to foster group responsibility and to strive for excellence in governance. Pursuant to Part 2, Chapter 1, Article 3.2, "General Duties of the Board of Directors," the Board shall

- a) Be the initiator of policy with long-term focus and impact;
- b) Use the expertise of individual Directors to enhance the ability of the Board as a body;
- c) Cultivate group responsibility;
- d) Regularly discuss and evaluate its performance as a body;
- e) Engage in Board media relations training to promote a united message; and

- f) Invest in Board development, ethics trainings, and conference and policy briefings to assure excellence in governance.

1.3 Core Values Upheld by the Board

While it is not essential that all Directors share the same set of personal values, it is necessary that all Directors align and support the set of District's core values that are chosen as the basis for organizational decisions. The District's core values will direct all actions of the Board. On May 26, 2015, the Board of Directors approved the following core values in the establishment and implementation of its policies and practices:

- a) Integrity – Directors will consistently adhere to high moral and ethical principles;
- b) Collaboration – Directors will cooperatively work together and with stakeholders to further the mission and goals of the District;
- c) Customer Service – Directors will professionally and responsively serve the needs of the District's customers;
- d) Fair, open, and responsive – Directors will engage the District's stakeholders and interact with them in a fair, open, and honest manner;
- e) Accountability – Directors will take responsibility for and be accountable for all the District's actions
- f) Innovation – Directors will encourage and value the introduction of new ideas and methods

1.4 Administration and Finance Committee

The Administration and Finance Committee is the committee that investigates and/or refers ethics complaints against Directors, officers and employees of the District and addresses compliance issues related to the Code of Conduct or the Conflict of Interest provisions of the Administrative Code.

The Administration and Finance Committee shall be comprised of three District Directors with the authority to recommend action to the Board. The General Manager, Director of Human Resources, Director of Administration and Board Services and District General Counsel will also be in attendance to provide administrative and legal support.

The District encourages good faith reporting of suspected violations of the Code of Conduct or the Conflict of Interest provisions of the Administrative Code. Until the District determines that an actual violation of these Codes has occurred, the alleged violator is presumed to be innocent of the violation. There shall be no

adverse consequences suffered by anyone making a good faith report of a suspected violation nor shall there be any adverse consequences suffered by anyone accused of violating these standards and subsequently found not to have violated these Codes.

The District has adopted a two part system to address ethical complaints against Directors, officers and employees of the District, as follows:

- 1) Members of the Board, staff, or members of the public who feel comfortable reporting potential ethical or conflict of interest issues may do so to the Administration and Finance Committee and feel assured that a fair, complete, and appropriate process will be used to determine if a violation has in fact taken place, and if so, that the appropriate disciplinary action will be taken.

Individuals who wish to pursue this process may contact the General Manager's Office or General Counsel. Any suspected or reported potential violations will be agendaized at the next scheduled Administration and Finance Committee meeting. The Administration and Finance Committee may direct General Counsel to conduct an investigation. The Committee shall submit its findings involving Directors, along with any dissent, to the Board of Directors for action.

- 2) Individuals who wish to remain anonymous, who either require anonymity because of fear of retaliation, or simply lack trust in the ability of the District to execute an impartial process may report potential ethical or conflict of interest issues to the independent hotline.

Complaints received through the hotline will be directed to General Counsel who shall: 1) determine if the nature of the complaint is such that it can be sent to the Administration and Finance Committee; or 2) the complaint requires investigation by General Counsel. Upon completion of the investigation, General Counsel may refer the issue to the Administration and Finance Committee or the Board, the Board President, the General Manager, the Fair Political Practices Commission, the District Attorney's office or the U.S. Attorney's Office, as appropriate. If General Counsel refers the issue to the Administration and Finance Committee, the Committee shall submit its findings involving Directors, along with any dissent, to the Board of Directors for action.

Any ethics violation alleged to have occurred on the part of the General Manager may be reported to General Counsel or the hotline. Any ethics violation alleged to have occurred on the part of General Counsel may be reported to the General Manager or the Board President. If a member of the Administration and Finance Committee is a subject of the charge or allegation, he/she shall excuse himself/herself from discussing or participating in the matter. Violations of the Administrative Code, including its Conflict of Interest provisions, by officers or employees will be handled through existing disciplinary procedures for employees.

A Director who is subject to a finding of violation or non-compliance with the Code of Conduct shall, at the time the matter is referred to the Administration and Finance Committee or General Counsel, be provided a copy of the material upon which the determination was based and have the opportunity to present any relevant information, data or facts in his or her own defense prior to the final determination.

Any Director who is dissatisfied with the final determination that a violation or non-compliance with the Code of Conduct occurred may appeal to the Board of Directors by providing written Notice to the Administration and Finance Committee or the investigating firm within five (5) business days of the decision.

After investigation, determination and any appeal to the Board, and, with the advice of General Counsel, that substantial evidence exists indicating that a member of the Board is in non-compliance with this Code of Conduct or Administrative Code but not in violation of state law, the matter shall be referred to the Board, with notice to the Board member, with a recommendation for appropriate action, which can include, but is not limited to notification of a finding of non-compliance, issuance of a letter of reprimand, censure, loss of travel privileges, leadership positions, appointments to the Metropolitan Water District or other Boards. In the case that substantial evidence does exist indicating a violation of state or federal law the Board will refer the matter to the District Attorney's Office or the U.S. Attorney's Office for criminal charges, or to the Fair Political Practices Commission, as appropriate.

General Counsel will notify the General Manager of any complaints submitted to the hotline unless the complaints involve the General Manager. The Administration and Finance Committee and General Counsel shall review and summarize all ethics complaints in a quarterly report to the Board of Directors. General Counsel shall maintain copies of all findings, reports and actions concerning complaints.

1.29 Rules of Conduct at Board Meetings

As emphasized in earlier Board Meetings section:

- (a) Board members shall conduct themselves in a respectful manner at all times during Board and Committee meetings, and act civilly when engaging with the public, staff or fellow Directors.

1.30 Submittal and Review of Per Diem and Expense Claims

Each form is to be submitted to the District for processing. Upon receipt of the form, it will be reviewed to ensure that the claims adhere to the policies outlined above. and Finance Committee will review all Directors' expenses monthly, during their regularly scheduled Administration and Finance Committee meeting.

Director's per diem and other expenses should be submitted to the District as provided per the District's schedule and will be processed for payment for the following Wednesday. Directors may choose payment via direct deposit or check.

1.31 Public Awareness and Outreach

The District recognizes the importance of promoting water awareness, conservation and education. Accordingly, the District is authorized to initiate or participate in non-political public awareness activities.

Such activities shall include events of a non-political nature, including educational events, community issues forums, community festivals, environmental events, senior citizen forums and others which do not entail political, partisan, and/or religious participation, but which serve as outlets of information related to water issues and which may bring about institutional recognition for the District.

The District is not a charitable organization, and thus is refrained from engaging in activities that do not meet the criteria as described in the policy below.

1.32 Outreach Guidelines

A. Introduction and Purpose

An important goal of the District's outreach strategy is the promotion of water issues and to increase awareness of District programs, projects and policies. The District produces various events (District Hosted Events) designed to promote water issues and to increase awareness of District programs, projects and policies. The District supports certain organizations and events on an annual basis as identified in its budget. The District recognizes there are other organizations that organize, produce, or host events which offer opportunities for the District to promote water issues and to increase awareness of District programs, projects and policies. Such public events are considered "Non-District Sponsored Events."

Sponsorships made by the District to support events hosted by organizations in the service area should promote discussion of water issues from a local, regional, statewide or national perspective and/or provide the opportunity to increase awareness of District programs, projects and policies. The District provides support for community water awareness programs and projects, water-related education outreach programs, and public policy water conferences.

B. Budgeted and Pre-Approved Sponsorships

The District approves on an annual basis, through its budgetary process, participation in and sponsorship of certain water related events, conferences, and programs, which bear a direct relationship to the District's operations and activities.

C. District Hosted Events

The District may produce events to promote water issues and to increase awareness of District programs, projects and policies, provided that such events are not political, partisan and/or religious in nature. The District may also partner on regional events.

D. Requirements for Non-District Sponsored Events

The General Manager or Director of External Affairs (in accordance with the District's Procurement Policy) may decide to sponsor or authorize participation in Non-District Sponsored Events provided that such events: (1) provide the opportunity to promote water issues or increase awareness of District programs, projects and policies; (2) are not political, partisan and/or religious in nature; 3) are open to the community; and 4) meet the requirements as defined by this policy.

The requesting party must complete the District's Community Outreach Application (Application) and provide clearly defined reasons for District participation in the Non-District Sponsored Event, including details about how the Non-District Sponsored Event promotes water issues or provides an opportunity to increase awareness of District programs, projects and policies.

The Non-District Sponsored Event must have a staff member present and include at least one of the following criteria:

- a. A speaking opportunity for a District representative; or
- b. A District booth or table at the event to distribute District information or promotional items to promote District awareness

Verification of a speaking event or hosting of a booth for the Non-District Sponsored Event must include supporting documentation (i.e. a flyer) and submitted to the Director of External Affairs at the time the application is submitted at least 30 days in advance.

The District will only issue payment through checks paid directly to host organizations which meet these guidelines. No cash disbursements will be made for events covered by these guidelines. Invoices for such payments must be submitted at least 30 days prior to the requested event.

E. Proposed Expenditures

A pre-determined amount approved in every fiscal year budget is available to pay sponsorship or participation fees for designated Non-District Sponsored Events. Any expenditure made for Non-District Sponsored Events must be related to the promotion of water issues or increase awareness of the District's programs, projects and policies.

F. Restrictions

Collateral or promotional materials will not qualify for Non-District Sponsorship. Expenditures for outreach should not exceed \$200 per event per fiscal year. Sponsorship per organization is dependent upon available funds in budget.

1.33 Code of Conduct Enforcement and Sanctions

A Director who is subject to a finding of violation or non-compliance with the Code of Conduct or other section of the Administrative Code shall be reported to the Administration and Finance Committee, which in turn can make recommendations to the Board. The sanction imposed should depend upon the severity of the violation and may be progressive unless the violation is determined to be so egregious as to warrant more severe action as an initial sanction.

While the Board does not have the power to remove any Director from office, the Board, by a majority vote, may take other action as deemed appropriate, including:

- a) Public or private censure by the Board;
- b) Disqualification from participation in any discussion or vote on the matter related to the violation;
- c) Removal of the Director from one or more committee appointments or designated MWD representative appointment; and
- d) Any other sanction determined by the Board of Directors to be appropriate and reasonable based upon the nature of the violation that is permissible under the law.
